Session 8: Five-minute showcase and next-step guide

Final Showcase, Project Presentations & Graduation

Your outcome

Demonstrate the problem, working solution, observed result and next decision in five minutes. Celebrate useful learning, including a well-evidenced decision not to deploy.

Before you begin

Bring your capstone artifact, evidence and fallback demo. Use your cohort calendar for timing; this resource has no fixed start date.

Participant details

Name: _____ Cohort: _____
Project / task: _____

Working boundaries

Use fictional or explicitly approved examples. Do not paste private customer, employee, health or financial records into public AI tools. Follow your organization's tool and data rules. Treat outputs as drafts; a person verifies facts and approves external actions.

What to keep

Keep a copy of your inputs, outputs, decisions and revisions. Browser-only drafts may not follow you to another device. Upload the completed resource or share a permitted link through your participant dashboard.

Course coaching

Each cohort participant may request one remote coaching session during the course. Request it inside the platform; your instructor confirms the time. Use the same conversation for time changes.

Lab guide

Follow your instructor or work through these steps using approved tools. A document or manual simulation is acceptable when a connected tool is unavailable; label its status honestly.

Step 1

Prepare your five-minute outline using the worksheet.

Step 2

Rehearse the working demonstration and its fallback with a timer.

Step 3

Capture peer feedback and name the next decision, owner and review point.

Worked example — fictional / illustrative

Illustrative example: a participant shows one triaged fictional request, the missing-information warning and the human correction. They distinguish measured trial results from estimates and recommend a small pilot with a review date.

Try the prompt sheet

Use the companion prompt sheet as a starting point, replace bracketed fields and test the result. It is not a guarantee of accuracy or an instruction to publish anything.

Participant worksheet

Complete the fields below. Use the editable Word version if you need more space. Label evidence you have not collected yet as unknown.

0:00-0:40 — problem, user and original effort

_____
_____

0:40-2:40 — show one complete workflow and human check

_____
_____

2:40-3:40 — measured result, method and sample count

_____
_____

3:40-4:30 — limitations, governance and ownership

_____
_____

4:30-5:00 — next decision and concrete ask

_____
_____

Participant worksheet — continued

Complete the fields below. Use the editable Word version if you need more space. Label evidence you have not collected yet as unknown.

Backup demonstration location

_____

_____

Peer feedback: strongest evidence / unanswered question

_____

_____

My next step / owner / review point

_____

_____

What I will continue, change or stop

_____

_____

Test, challenge and improve

Test 1

Live demo: use fictional or approved examples and show the actual output and human check.

Expected result: _____
Actual result / evidence: _____
Correction or decision: _____

Test 2

Fallback: prepare screenshots or a walkthrough in case the tool, connection or account is unavailable.

Expected result: _____
Actual result / evidence: _____
Correction or decision: _____

Test 3

Challenge: answer a question about limitations, review effort or who will own the workflow after the course.

Expected result: _____
Actual result / evidence: _____
Correction or decision: _____

Transfer challenge

Run once with a timer and once using only your fallback. Finish within five minutes and keep one clear action for after the course.

Review and submit

Mark each criterion ready, needs revision, or not applicable with a reason. An instructor reviews the evidence; completing a worksheet alone does not establish approval or certificate eligibility.

[ ] Ready [ ] Revise [ ] N/A — The demonstration shows one working task and its human check.

[ ] Ready [ ] Revise [ ] N/A — Results distinguish measured evidence from estimates and include review effort.

[ ] Ready [ ] Revise [ ] N/A — Limitations, data boundaries and an accountable owner are stated.

[ ] Ready [ ] Revise [ ] N/A — A fallback demonstration and a concrete next decision are ready.

[ ] Ready [ ] Revise [ ] N/A — The presentation fits five minutes without relying on invented results.

Submission

Session 8 has no separate deliverable upload. Prepare your showcase and update your capstone evidence in the dashboard. Follow the instructor’s presentation instructions.

Feedback and follow-through

Feedback received: _____
Change I made: _____
Evidence retested: _____
My next action / owner / review point: _____
